REPORT: What were your anticipated benefits?	
	Anticipated benefits included networking, poster presentation skills and valuable conference experience.
COMMENTS: Describe your experience at the conference / lab visit / course / seminar/ event.	
	Experience was quite daunting initially due it being my first AS conference, however, I greatly enjoyed the experience and met lots of new and interesting people. Many of the talks were very interesting and I learned lots of new things which will greatly benefit my career especially in finishing my degree in Anatomy at the University of Glasgow. I particularly enjoyed Professor Dame Sue Black's talk. The early-career member social was a great way to also meet new people and was good fun.
REPORT: In relation to skills, what were the most important things you gained? <i>(does not apply to equipment grant.</i> For public engagement/outreach awards what did your audience gain and how did you evaluate success?	

The experience allowed me to present my research to experts in the field of anatomy which gave me confidence in my knowledge and abilities. This experience has helped build my skills in presenting.

**REPORT:** How do you think you will put this learning experience into practice in the future? For public engagement/outreach awards how with the materials/knowledge generated by this activity be used in the future?

I will put this experience into practice for future conferences and also throughout both my university career and my life after university where I will no doubt be required to present orally with confidence and accuracy to academics and the public.
