

Anatomical Society Mentorship Scheme

Supporting the identification and achievement of career goals for our members

May 2026 Call for Academic Anatomical Society Members

Are you looking for an opportunity to advance your career, grow your network, and receive guidance and support from experienced professionals? Or do you wish to give something back to the next generation of anatomists? Consider joining our Anatomy Mentorship Programme!

Whether you're a recent graduate, early career, or an experienced professional, our programme offers something for everyone. As a mentee, you will receive one-on-one guidance and support from a mentor who will share their knowledge and expertise with you. As a mentor, you will have the opportunity to make a positive impact on the next generation of anatomists.

After a successful pilot year, the scheme is continuing to support even more of our members. With an initial one year commitment, you would be expected to meet approximately once every two months for one hour, either online or in-person.

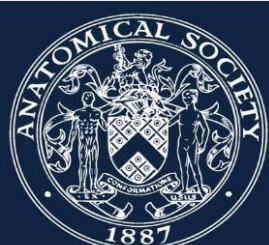

We welcome applications from all fully paid-up members of the Anatomical Society, so if this is something you are interested in being a part of, please complete the online form available through the QR code above.

~6 hours/year

Initial 1 year commitment

Handled virtually, but with a designated mentorship mixer at AS meetings

To get involved, please complete the form available through the QR code above

MENTORSHIP SCHEME

✉ mentorship@anatsoc.com
